

## **Forklift Operator Certification Port Coquitlam**

Forklift Operator Certification Port Coquitlam - Certification for forklifts are required to ensure the safe utilization of forklifts for those employers in warehouse, construction and industrial settings. The training should involve a method of education plus some testing. There are two common ways to get forklift operator training and acquire certification. People could seek out training on their own or through the business with which the individual is employed.

The businesses that operate forklifts would be required by local safety authorities to ensure that all operators making use of forklifts are certified. Companies can face penalties and fines for failing to properly train all forklift operators.

Forklift training and certification that is offered by the employers is typically facilitated by an on-site manager. Courses would usually consist of safety procedures, instruction on the forklift and its components and the right use of the forklift. Testing will be done in order to assess comprehension. A performance test occurs at the end of the program. If successful, the trainee will receive a certification card.

The alternative method to employer offered training is to enroll in a program at a forklift certification training school. These schools would offer instruction on many types of forklifts. Safety procedures are a major focus of the training. A driving test and written test must be successfully carried out before a forklift certification card is given. The forklift certification designation can be transferred to work performed on a lift truck with any employer, which makes it convenient for people searching for a forklift operator job.

Incorrect forklift operation can lead to serious injury to other employees, the operator or company property. To be able to avoid accidents, supervisors should make certain that all relevant personnel get certified. Forklift certification is normally valid for two or three years, after which re-certification is required.
